Education

Technical University of Munich, Exchange Program in Informatics Oct. 2025 – Mar. 2026 (Expected)
National Cheng Kung University, MS in AI Robotics Sep. 2023 – Sep. 2026 (Expected)

- GPA: 4.1/4.3
- GenAI, LLM, Computer Vision, Deep Learning, Efficient AI Model Design
- Award: 2nd Place(2025 TSMC IT CareerHack), Soul Coder(GDSC)

National Cheng Kung University, BS in Geomatics Feb. 2020 – Jan. 2023

- Data Analysis, Data Structure, WebGIS, Remote Sensing
- Award: Popular & Creative Hacker(TSMC IT Hackathon), Finalist (2022 TSMC IT CareerHack)

Experience

Cloud & AI Solution Engineer Intern, Microsoft – Taipei, TW Jun. 2025 – Sep. 2025

- Host 2 Hackathons for TrendMicro Corp.
- Build several POC projects for clients using **Azure AI Foundry**
- Utilize **RAG, Multi-Agents** system to tackle Finance Compliance Advisor

Data Scientist Intern, Micron – Taichung, TW Jul. 2024 – Aug. 2024

- Automated detection to improve **Overall Equipment Effectiveness (OEE)** in real-time monitoring
- Designed statistical models using multiple moving averages for **time series anomaly detection**
- Deployed an alert system for early performance degradation detection, boosting OEE metrics

Software Engineer Intern, TSMC – Hsinchu, TW Jun. 2022 – Jan. 2023

- Digitized checklists to streamline workflows and eliminate paper use in manufacturing
- Engineered full-stack solutions using **Flutter(frontend)** and **Spring Boot(backend)** with **MongoDB**

Projects

GGWhisPer - 2nd place in 2025 TSMC IT CareerHack LittleFish-Coder/GGWhisPer

- A multilingual enterprise communication system to break language barriers in corporate settings

Dance Generator LittleFish-Coder/yyds-dance-generator

- An innovative generative AI dance synthesizer that transforms source images into dynamic dance movements, utilizing cutting-edge techniques from **MediaPipe** and **Pix2Pix**

Basketball Sports AI LittleFish-Coder/basketball-sports-ai

- Utilize **YOLOv8** to build a real-time basketball analysis system with **shot detection, ball tracking and pose estimation** for auto-highlight scenes

Academic & Leadership

Conductor, Intern Hour - Techie Talk (Taiwan's FIRST-ever event) Aug. 2025

AI Project Leader, Google Developer Student Clubs – NCKU Sep. 2023 – Jun. 2024

Programming Lecturer, Accton – Hsinchu, TW Feb., Jul. 2023 & Jan. 2024

- Led C & Python programming workshops for middle school students in collaboration with NCKU and NYCU

Skills

Languages: Python, C/C++, Java, Kotlin, SQL, JavaScript

Framework: A2A, PyTorch, Streamlit, FastAPI, Flask, Spring Boot, Flutter, MVC

Software & Tools: Git, CI/CD, MCP, n8n, Hugging Face, Azure Cloud, GCP, MongoDB, MySQL, Linux
